## **The “Discover Architecture” Academy at OSU**

SUZANNE BILBEISI, Oklahoma State University

The “Discover Architecture” academy hosted by Oklahoma State University is designed to promote the importance of architecture to society, and introduce potential career opportunities within the fields of architecture and architectural engineering to high school students. By 2005, more than 150 participants will have been introduced to the problem-solving process, and the challenges and rewards of these disciplines involved in the creation of architecture. Professional architects and engineers from both Oklahoma City and Tulsa support this academy. Along with the resources extended by OSU and the Oklahoma State Regents for Higher Education, this academy is an ideal model of the profession, the state government and academia working together to promote a brighter future for our state.
